Instruction / explanation

The MATE is an assessment instrument. The assessor evaluates the information obtained from it and is free to choose the most appropriate way to obtain the required information. If the information needed for an item is known with certainty, the answer can be filled in without asking any questions. Most questions do not have to be asked word for word. Exceptions are the modules marked 'L' (literally) or 'Q' (self-report questionnaire).

L	(literally)	Questions must be asked word for word. Explanations should be given only when absolutely necessary or when a question has not been clearly understood.
Q	(self-report questionnaire)	The person fills in the questionnaire independently. If the person is unable to do this, the assessor should help by reading out the questions.
Time frame	(time frame)	The time frame for the assessment.
	«Probe question	Probe questions that might be used to find out information about the person are placed in italics and start with double angled brackets.
	† Assessment/characteristics/explanation	Text that is preceded by a cross and is in a different font is meant to be either: † an assessment instruction, † a statement of characteristics to which the assessor should pay attention, or † an explanation to the assessor. Such text should not be used literally.
	<u>underscored text</u>	Denotes a <u>core concept or concepts</u> of the item. These can be used when it is necessary to obtain further information.
	[—substance—] [—substance/behaviour—]	Fill in the Primary-problem substance or behaviour.
	Yes No	Circle Yes or No.
	Write down the number.
	Write down an explanation (free format).

1. Substance use and excessive behavior

30 days

Lifetime

Regular means

† Mark this if you do not fill in the use during the past 30 days, but from an earlier period of 30 days.

«I will begin by asking about the substances you might use. We will consider two periods, the past 30 days and your lifetime. Under 'lifetime' we would like to know how many years you have used the substance regularly. Under 'the past 30 days' we would like to know how many days you used the substance during that time and how much you used on a typical day.
 «I will start with alcohol.
 Did you drink alcohol in the past 30 days?
 If so, on how many days did you drink, and how much did you drink on a day?
 † Continue with the other substances.

		Past 30 days			Lifetime
		Number of days in the past 30 days	Amount used on a typical day		Total number of years of regular use/behaviour
Alcohol	On most days	standard drinks (ca. 10 grams of alcohol)
	On some days		
Tobacco		cigarettes, cigars, pipes, chews
Cannabis	
Opioids	Methadone, buprenorphine
	Heroin
	Others, like morphine, codeine, oxycodone, fentanyl
Stimulants	Cocaine
	Amphetamines
	Others, like methylphenidate, khat
Not categorized	MDMA (ecstasy), MDxx
	GHB
Hallucinogens	PCP, ketamine, mescaline, DOM, 2C(-x), psilocybin, DMT, LSD, salvia divinorum
Other drugs	E.g.: inhalants, laughing gas, poppers. Write down the most important one ✍️.....
Sedatives, Hypnotics, or Anxiolytics	Benzodiazepines, barbiturates
Gambling	E.g.: casino, slot machines, cards, lottery, sports betting. Write down the most important one ✍️.....	euros spent (gross)
Other excessive behavior	E.g.: excessive: internet gaming, other internet use (social media; pornography), sexual behaviour, shopping, exercise. Write down the most important one ✍️.....	number of hours
«Have you ever injected a substance? <input type="checkbox"/> Ever injected <input type="checkbox"/> Still injects <input type="checkbox"/> Never injected					
† The Primary-problem substance or behaviour is the one of which is judged by the person and the assessor to be causing the most problems. If this is unclear, then choose in this order (1) cocaine, (2) opioids, (3) alcohol, (4) other drugs and sedatives, (5) cannabis, (6) gambling or tobacco. If the use of tobacco or gambling is the problem for which the person is seeking help, tobacco or gambling is the primary substance or behaviour.					
† [—Primary-problem substance or behaviour—] =		✍️.....			

2. Indicators for psychiatric or medical consultation

MATE 

Medications currently being prescribed

		«What are these medications, and what dosages have been prescribed for you?»	«For which disorders have these medications been prescribed?»
At present	«Have you been prescribed any medications for an addiction?»	Yes No <i>[Handwritten: No]</i>	Addiction
	«Have you been prescribed any medications for psychological or psychiatric problems?»	Yes No <i>[Handwritten: No]</i>	<i>[Handwritten: No]</i>
	«Have you been prescribed medications for any other illnesses?»	Yes No <i>[Handwritten: No]</i>	<i>[Handwritten: No]</i>

Current or recent (within the past year) psychiatric or psychological treatment

12 months	«Are you now undergoing psychiatric or psychological treatment (or have you been during the past year)?»	Yes	«What treatment are (were) you in?»	† State whether coordination with current treatment has been arranged. Comment.
		No <i>[Handwritten: No]</i>		Yes No <i>[Handwritten: No]</i>

Characteristic / Question / Observation

Characteristic	Characteristic / Question / Observation	Yes	No
Suicide risk	Wish «In the past month, did you think that you would be better off dead or wish that you were dead?»	Yes	No
	Plan, attempt «In the past month, did you make plans to commit suicide or make a suicide attempt?»	Yes	No
Psychotic symptoms	Hallucinations «In the past month, did you see or hear things that other people couldn't see or hear?»	Yes	No
	Delusions † Paranoid «In the past month, did you think that other people were conspiring against you?»	Yes	No
Confusion	† Makes a confused, disoriented impression; is forgetful	Yes	No
Physical health	† Unhealthy appearance, very pale or puffy face, suffusions, difficulty walking, oedematous legs, emaciation or abdominal obesity, abscesses, effects of scratching	Yes	No
Intoxication/ withdrawal symptoms	† Trembling, incoordination, slurred speech, staggering gait, psychomotor retardation or agitation, insults, severe sweating, vomiting, pupillary anomalies	Yes	No
Physical disease	«Do you have a severe or contagious disease, such as heart problems, diabetes, hepatitis, or HIV?» <i>[Handwritten: No]</i>	Yes	No
Pregnancy ♀	«Are you pregnant?»	Yes	No

3. History of treatment for substance use disorders

Treatments for substance use disorder during the past 5 years

† Count only treatments that focused on addictive behaviours conducted by a professional and in which an agreement was made to change the substance use. Methadone maintenance, simple detox, crisis hospitalisation, etc. do not count as treatment.

5 years	«Have you ever been in treatment for addiction?»	Yes No	«If yes, how many treatments in the past 5 years?»	Number outpatient past 5 years	Number inpatient past 5 years
	† Comment if desired.	<i>[Handwritten: No]</i>					

L

4a. Disorder in the use of the Primary-problem substance

«In the past 12 months, ...»

† NB: 'in the past 12 months' may refer to something that began earlier and is continuing.

[—substance—] = 

1	... did you regularly have a strong desire to use [—substance—] ?	Yes	No
2	... have you regularly wanted to stop [—substance—] use?	Yes	No
3	... have you spent a lot of your time using, getting, or getting over [—substance—] ?	Yes	No
4	... have you often used [—substance—] in larger amounts or for a longer period than you intended?	Yes	No
5	... did you find you began to need much more [—substance—] to get the same effect?	Yes	No
6	... did stopping or cutting down [—substance—] make you feel sick or unwell?	Yes	No
7	... did you continue to use [—substance—] after you knew that it was causing you health problems or emotional or psychological problems?	Yes	No
8	... did you continue to use [—substance—] after you knew that it was causing problems with your family, friends, at work, or at school?	Yes	No
9	... have you given up or greatly reduced important activities in order to get or to use [—substance—] — activities like sports, work, or associating with friends or relatives?	Yes	No
10	... did using [—substance—] frequently interfere with your work at school, on a job, or at home?	Yes	No
11	... In the past 12 months, have there been times when you used [—substance—] in situations where you could get hurt, — for example, while participating in traffic, or operating a machine, or anything else?	Yes	No

L

4b. Gambling disorder

«In the past 12 months, ...»

† NB: 'in the past 12 months' may refer to something that began earlier and is continuing.

[—behaviour—] = 

1	... have you often been preoccupied with thoughts about gambling?	Yes	No
2	... did you need to gamble with more and more money to get the excitement that you desired?	Yes	No
3	... have you regularly tried to stop or cut down gambling but without success?	Yes	No
4	... did stopping or cutting down gambling make you feel restless or irritable?	Yes	No
5	... have you often gambled while feeling stressed (e.g., helpless, guilty, anxious, depressed)?	Yes	No
6	... after losing money by gambling, did you often return another day to try to win back your losses?	Yes	No
7	... did you lie to hide your gambling?	Yes	No
8	... have you put at risk or lost a significant relationship, job, or educational or career opportunity because of your gambling?	Yes	No
9	... did you rely on others to provide money to relieve desperate financial situations caused by your gambling?	Yes	No

L

† Be aware that the statement has to apply in general, often, normally, not only with specific persons or in specific situations.

Usually, generally

T

1	In general, do you have difficulty making and keeping friends?	Yes	No
2	Would you normally describe yourself as a loner?	Yes	No
3	In general, do you trust other people?	Yes	No
4	Do you normally lose your temper easily?	Yes	No
5	Are you normally an impulsive sort of person?	Yes	No
6	Are you normally a worrier?	Yes	No
7	In general, do you depend on others a lot?	Yes	No
8	In general, are you a perfectionist?	Yes	No

The MATE-ICN is the section of the MATE that is based on the ICF (International Classification of Functioning, Disability, and Health). From the ICF, a core set of domains and factors is selected. Problems, limitations, and need for care are assessed for these domains in Module 7, and environmental factors influencing recovery are assessed in Module 8. ICN refers to ICF-Core set and Need for care.

With regard to activities and participation, the ICF makes a distinction between performance and capacity. The MATE-ICN evaluates an individual's performance rather than his or her capacity. Performance refers to the execution of activities and participation, and capacity refers to the ability to execute them.

An individual's performance can be supported by the use of facilities or other environmental factors. A person who does not have the capacity to do household activities, but for whom these activities have been taken care of by others, would be judged not to have a performance limitation in this domain. If support is provided by an organisation, the supporting activities are scored on the item 'Care and support of services'.

Limitations are scored on a five-point scale, ranging from 0 (none) to 4 (complete). The degree of limitation can vary in intensity ('not noticeable' to 'full disruption of daily life'), in frequency ('never' to 'constantly'), or duration ('less than 5% of the time' to 'more than 95%').

The following figure depicts the scale.

Score	0	1	2	3	4
Degree of limitation	None	Mild	Moderate	Severe	Complete
Intensity	Not noticeable	Tolerable	Interference with daily life	Partial disruption of daily life	Full disruption of daily life
Frequency	Never	Rarely	Occasionally	Frequently	Constantly
Duration	0-4%	5-24%	25-49%	50-95%	96-100%

Ruler

The figure shows that the extreme scores, 0 (none) and 4 (complete), represent only a small part of the scale (5% of each side). For a score of 0 or 4 to be given, the degree of limitation must be quite obvious. The score 2 (moderate) reaches no more than half of the scale (50%). This means that when the limitation is more than 50%, the score 3 applies.

External factors are scored according to the extent of the positive effects (i.e. facilitators) or negative effects (i.e. barriers) as 0 (none), 1 (mild), 2 (moderate), 3 (substantial), or 4 (profound).

In the MATE protocol, anchor points based on these scales are given for all domains and factors to help with the scoring.

Some domains or factors might not be relevant for every individual. If a person does not find a domain relevant, the score '0' is given for that domain.

All assessments must be made within the context of health. Information that is not related to the person's physical and/or mental health should not be scored.

The need for care assesses (a) whether the assessor thinks the person needs (additional) care or support in performing a given activity or in participating, (b) whether the person thinks he or she needs (more) care, and, if any one of these is scored Yes, (c) whether it is considered the task of the institution to offer the care in question.

The person's functioning over the past 30 days is assessed, regardless of whether or not this period is representative of the person's life.

30 days

ICF Component d: Activities and participation and Component e: Care and support of services		Limitation in performance / has difficulty in	Component e: Care and support from services	Amount of Care and support	NEED FOR CARE

OTHER ENVIRONMENTAL FACTORS	e598 Other environmental factors † Don't write down external factors that have been written down already.				
	Other environmental factors having a positive influence «Are there any other environmental factors that are having a positive influence on you and your recovery?»	..+.....		
	Other environmental factors with negative influence «Are there any other environmental factors that are having a negative influence on you and your recovery?»	Yes Yes Yes No No No		

Q The questions below ask you about your thoughts and feelings about [—substance/behaviour—] and about using or not using.

The questions concern only the *past 7 days*. Answer the questions based on what you thought, felt, and did during the past week. Circle the number before the answer that best applies to you.

[—substance/behaviour—] = 

T
7 days

1 How much of your time when you're not using is occupied by ideas, thoughts, impulses, or images related to using?

- 0 None.
- 1 Less than 1 hour a day.
- 2 1-3 hours a day.
- 3 4-8 hours a day.
- 4 More than 8 hours a day.

2 How frequently do these thoughts occur?

- 0 Never.
- 1 No more than 8 times a day.
- 2 More than 8 times a day, but most hours of the day are free of these thoughts.
- 3 More than 8 times a day and during most hours of the day.
- 4 These thoughts are too numerous to count, and an hour rarely passes without several such thoughts occurring.

3 How much distress or disturbance do these ideas, thoughts, impulses, or images related to using cause you when you're not using?

- 0 None.
- 1 Mild, infrequent, and not too disturbing.
- 2 Moderate, frequent, and disturbing, but still manageable.
- 3 Severe, very frequent, and very disturbing.
- 4 Extreme, nearly constant, and disabling distress.

4 How much of an effort do you make to resist these thoughts or try to disregard or turn your attention away from these thoughts as they enter your mind when you're not using? (Rate your effort made to resist these thoughts, not your success or failure in actually controlling them.)

- 0 My thoughts are so minimal that I don't need to actively resist them. If I do have thoughts, I always make an effort to resist them.
- 1 I try to resist them most of the time.
- 2 I make some effort to resist them.
- 3 I give in to all such thoughts without attempting to control them, but I do so with some reluctance.
- 4 I completely and willingly give in to all such thoughts.

5 How strong is the drive to use [—substance/behaviour—]?

- 0 No drive to use [—substance/behaviour—].
- 1 Some pressure to use [—substance/behaviour—].
- 2 Strong pressure to use [—substance/behaviour—].
- 3 Very strong drive to use [—substance/behaviour—].
- 4 The drive to use [—substance/behaviour—] is completely involuntary and overpowering.

Q

Please read each statement and circle a number 0, 1, 2 or 3 which indicates how much the statement applied to you over the *past week*.

There are no right or wrong answers. Do not spend too much time on any statement.

The rating scale is as follows:

0 = Did not apply to me at all

1 = Applied to me to some degree, or some of the time

2 = Applied to me to a considerable degree, or a good part of the time

3 = Applied to me very much, or most of the time

T
7 days

Did not apply to me at all	Applied to me to some degree, or some of the time	Applied to me to a considerable degree, or a good part of the time	Applied to me very much, or most of the time
----------------------------	---	--	--

1	I found it hard to wind down	0	1	2	3
2	I was aware of dryness of my mouth	0	1	2	3
3	I couldn't seem to experience any positive feeling at all	0	1	2	3
4	I experienced breathing difficulty (e.g., excessively rapid breathing, breathlessness in the absence of physical exertion)	0	1	2	3
5	I found it difficult to work up the initiative to do things	0	1	2	3
6	I tended to over-react to situations	0	1	2	3
7	I experienced trembling (e.g., in the hands)	0	1	2	3
8	I felt that I was using a lot of nervous energy	0	1	2	3
9	I was worried about situations in which I might panic and make a fool of myself	0	1	2	3
10	I felt that I had nothing to look forward to	0	1	2	3
11	I found myself getting agitated	0	1	2	3
12	I found it difficult to relax	0	1	2	3
13	I felt down-hearted and blue	0	1	2	3
14	I was intolerant of anything that kept me from getting on with what I was doing	0	1	2	3
15	I felt I was close to panic	0	1	2	3
16	I was unable to become enthusiastic about anything	0	1	2	3
17	I felt I wasn't worth much as a person	0	1	2	3
18	I felt that I was rather touchy	0	1	2	3
19	I was aware of the action of my heart in the absence of physical exertion (e.g. sense of heart rate increase, heart missing a beat)	0	1	2	3
20	I felt scared without any good reason	0	1	2	3
21	I felt that life was meaningless	0	1	2	3
